## Amanda's Project

BY MINDY WEBER, CASEWORKER

*"There are no hopeless situations; there are only people who have grown hopeless about them."*  
- Clare Boothe Luce

October 4, 2004 is a day I will never forget. On this day I was told I would be adding another client to my caseload, only this was no ordinary client. Amanda\* was only two years old when she was admitted to Children's Home with numerous medical complexities including spina bifida, hydrocephaly, paralysis from the waist down, low muscle tone and difficulty swallowing. She had also just spent 12 days in the hospital while battling a respiratory infection. I was told that Amanda would have numerous pediatric appointments as well as speech, occupational and physical therapy. I remember crying in my office and wondering how I would manage all of her medical complexities and appointments while still juggling a full caseload.

I met Amanda several days later. She was so medically fragile that I not only worried about her, but about the foster parents who had already agreed to have her placed in their home and care for her. I immediately spoke to them about making arrangements for me to take Amanda to her appointments. To my surprise, however, her foster parents told me that I was welcome to attend the appointments with them, but that I didn't need to transport Amanda to the appointments myself. They had already decided that they wanted to be involved in her care first-hand. That was over six years ago and I have yet to take Amanda to a single appointment!

Amanda's biological mother was a teen mom with little to no support, but Amanda's foster parents kept her involved in Amanda's life. Once she realized they were able to care for Amanda in a way she could not, she put Amanda's best interests in front of her own and surrendered her parental rights. This not only allowed Amanda to remain in the safe, stable and loving home of her foster parents, but allowed them to begin the process of adopting her! The process

hasn't been an easy one due to the additional services that Amanda requires (and will continue to require throughout her life), but her foster parents remain committed to Amanda, to her medical care and to providing her with a loving home. They are even renovating their home to accommodate the wheelchair she uses now and a larger, adult-sized wheelchair that she will need as she continues to grow!

In my 12 years as a Caseworker, I can honestly say that I have never seen foster parents as committed to the care of a child as Amanda's foster parents are to her care. As a result, she has truly flourished in this home and with this family. Amanda may have come into care as a seemingly helpless, dependent toddler, but has become a beautiful, independent, joyous, boisterous and very special eight-year-old girl who has not only touched my life, but the lives of everyone she meets.

*We are happy to report that the women of Real Estate Staging Association (RESA), Women's Council of Realtors and Re/Max Unlimited recently stepped up to the challenge of raising the \$25,000 needed to renovate Amanda's foster home. Because of their generosity and support of this special-purpose campaign, "Amanda's Project" has already succeeded in raising approximately \$7,000 to ensure that Amanda is able to remain happy, independent and healthy in her current foster home!*

## MESSAGE FROM THE PRESIDENT & CEO

As we set our sights on warmer weather, things are already heating up at Children's Home. We have an exciting spring ahead that includes the launch of our new strategic plan: "Vision 2015 - The Path to our Future." In the plan are some exciting initiatives that will help us further our mission to serve the thousands of children still to come through our doors. Our needs may be diverse but the opportunities are great, and I am excited to bring this plan to life!

One initiative in the strategic plan will help us better educate/inform the community about our wide array of programming. When speaking to community groups we often hear, "I had no idea that Children's Home does so much." I would like to take this opportunity to discuss an area of programming that few people are aware of.

We all know that society responds to minor crime in a much different manner than in the past. We have become a society that immediately calls the police to address our problems as opposed to dealing with them within our own household or neighborhoods. As a result, many young, often first-time offenders of minor crimes are in the juvenile justice system based upon decisions they have made as adolescents. Most have never been given the opportunity to learn or understand the true impact of their actions and the harm it caused others.

Restorative Justice is a philosophy that promotes to the extent possible, that all stakeholders involved in a specific situation should work collectively to identify and address harms, needs and obligations in order to move forward. It is a form of justice gaining national attention and one we are proud to be part of. The goal of Restorative Justice is to repair the harm that has taken place between people while holding individuals accountable and building competencies. This philosophy states that when a crime is committed, there are two victims: the victim of the crime itself and the community in which the crime took place. Not only should the person who committed the crime be held accountable for his/her actions, but the victim and the community need to have their harm repaired.

There are several ways to "restore justice" to the victim and the community. Children's Home is a certified trainer and consultant, teaching others how to implement this methodology in addressing minor crimes. We have worked with the public schools to adopt Peer Jury's (where students are trained to be jurors and hold their peers accountable for their behavior at school) to address harmful actions within the school setting. Another Restorative Justice model used in educational settings is Peace Circles. This involves a classroom of students (led by someone trained in this intervention) sitting in a circle to resolve their conflicts in a controlled and therapeutic manner. Another important implementation of Restorative Justice, however, is with the Peoria Police Department utilizing Peace Conferencing. In order to deal with minor crimes, we have implemented this approach which is operated by trained community members who hold juvenile offenders accountable for crimes. The local chapter of The Covenant with Black America has been instrumental in recruiting volunteers and providing leadership in working towards sustaining this effort.

I must emphasize that Restorative Justice does not "go easy" on crime or on criminals, in fact, quite the opposite is true. Through Restorative Justice, the offender is held accountable by participating in a face-to-face meeting with the victim, community members and the Peoria Police Department and, therefore, gains a better understanding of the harm he/she has caused to both the victim and the community. Consequently, the victim feels a sense of "repair" by being part of this process. The offender is given his/her consequences (which may include community service, a letter of apology and/or restitution), which typically results in a more positive outcome than in our legal system because the person who committed the crime understands the full impact/harm of their actions.

Restorative Justice is just one of the many programs at Children's Home that few people are aware of. Funding is provided by The John D. and Catherine T. MacArthur Foundation - Models for Change and allows us to implement system-changing initiatives that support our vision of a healthy community where families and children come first!

For the Kids,

FROM THE COMMUNITY & DONOR RELATIONS OFFICE  
OF BRIGITTE GRANT

Special people make a difference for the children in our community every day. Some of these folks are no longer with us, yet their courage, leadership, commitment and thoughtfulness continue to give children a childhood and future. Two such individuals were Walter and Mary Barker.

Born in 1848, Walter Barker was among the first generation of native Peorians. He married Mary Fuller in 1875 and together they built a business and philanthropic legacy in the Peoria community. In 1984, Walter became president of the Commercial National Bank. He also served as a director of the Chamber of Commerce, treasurer of the Creve Coeur Club and was a charter member of the Country Club of Peoria.

Upon Walter's death in 1914, Mary Barker assumed leadership of the bank and continued to carry out the philanthropic and charitable work the couple had dedicated themselves to during their years together. In 1920, Mary commissioned construction of the Walter Barker Memorial at what was then known as the Home for the Friendless. This building is the Knoxville Campus at what we all know today as Children's Home. Mary, a board member of the organization since 1900, continued to serve on the board until her death in 1931.

The Barkers knew that children often have the greatest needs yet the smallest voice in our society. Today, with us not only in spirit but also in legacy, the Barkers continue to touch the lives of thousands of children through their dedication to Children's Home over the last 100 years. We can each leave a legacy in the life of a child. Those who make such a commitment to our mission are honored with membership in the Walter and Mary Barker Society.

Members of the Walter and Mary Barker Society have a deep concern for children and families who are hurting and troubled. Their commitment, made through wills and estate plans, plays a crucial role in making quality services available to those in need - now and in the future.

Barker Society membership opportunities take into account the donor's need for flexibility, control and security. Options can be simple and in all situations, first and foremost, should be considered after securing the needs of your own family. Common arrangements include:

**Contingent Beneficiary:** Name Children's Home as a contingent beneficiary in your will, retirement plan or life insurance policy. In the event that your first beneficiary would pre-decease you, your gift will pass to Children's Home.

**Give All or Part of What Remains:** A residuary bequest is made from the assets that remain after the executor pays all taxes, costs and makes all specific bequests. You can specify that all or part of the remainder pass to Children's Home.

**Endow Your Annual Gift:** If you support Children's Home annually with a gift of \$500, consider leaving an amount in your will that will be invested in our endowment. That bequest will annually generate the amount of your regular gift after you are gone. Utilizing a 5% rate of return, your bequest of \$10,000 will continue your \$500 annual gift.

Children's Home is able to provide high-quality services to thousands of children in large part because of those who remember us in their estate plans. If you are considering endowing your annual gift or updating your will, please call me at 309.687.7210 to discuss your desires on behalf of the kids!

## Protecting... teaching... healing... GIVING!

Children's Home is proud to announce that our employees contributed over \$12,000 for the children and families in our community through the 2010 Heart of Illinois United Way Campaign. In addition to making monetary pledges, staff contributed to the campaign by coordinating and participating in a Silent Auction, 50/50 Raffle and Wing-Eating Contest. Clete and all six Vice Presidents joined in on the fun by agreeing to let staff (from each program that achieved 50% participation) throw pies at them, but the fun didn't stop there! Brigitte Grant encouraged staff to bring their clients to the pie-throwing celebration and contributed \$1 per child so that each one could throw a pie at Clete or the VP of their choice!

**Phil Munoz, Justen Rayner and Barry Moton (Residential Counselors) compete in the 2<sup>nd</sup> Annual Wing-Eating Contest to help raise additional dollars for the campaign!**

We are very fortunate to have such a wonderful group of dedicated staff working with our kids. We thank you for the work you do here every day and for "going the extra mile" to fulfill our mission!

## Fore the Kids!

The 11<sup>th</sup> Annual Maui Jim / Children's Home Charity Golf Classic, held on June 7, 2010 at the Country Club of Peoria, raised \$350,000 for the children and families in our community. That brings the event's 11-year total to an unbelievable \$2.69 million! Additionally, Maui Jim employees recently raised over \$8,500 through their Matching Gifts program to buy holiday presents for the kids!

Thank you so much to Walter Hester (CEO), Michael Dalton (COO) and everyone at Maui Jim for your commitment to the golf outing but, more importantly, for your continued generosity and support of our children throughout the year! (Please see "Upcoming Events" on page 9 for details about the 2011 Charity Golf Classic.)

## Old Chicago "Raises the Roof"

**Old Chicago employees Allen Ghareeb, Sarah Anderson and Lisa Ukeja present Clete Winkelmann with a check from their event.**

For the second summer in a row, employees from Old Chicago (Grand Prairie) spent an entire weekend on the restaurant's rooftop to raise money for the students at Kiefer School. Employees Sarah Anderson and Lisa Ukeja spent three fun-filled days and nights on the roof while a car wash, live music, dunk tank and raffle took place down below. To date, this event has raised over \$5,300 to help fulfill the back-to-school needs of our kids. We would like to thank Sarah, Lisa and everyone at Old Chicago for your enthusiasm, creativity and commitment to making a difference in our community!

## Greetings from Scott's Prairie!

This has certainly been an excellent year at Scott's Prairie with the number of kids and staff visiting the farm exceeding our totals from 2009. I'm happy to report that 2,735 kids and staff visited the farm in 2010. (That's nearly 800 more visits than last year!)

The newly trimmed orchard produced an abundance of apples and pears for our 4-H farmers markets. To date, the markets have raised over \$300 that will be used to replenish the orchard! The fishing pond was active the entire season and a lot of big bass and bluegill were caught. (The Residential kids caught quite a few on their camping trips in June!) We also worked diligently to create a Scott's Prairie "Field Guide" for staff and kids. The Guide is filled with simple (but fun) educational activities involving nature. Through a generous grant, we also purchased a composting worm farm. In addition to providing bait for fishing, the worm farm has and will continue to provide many educational benefits and will also provide our gardens with compost and liquid fertilizer!

2011 looks to be another great year at Scott's Prairie! For starters, we will enroll five acres of the farm into the CRP program (Conservation Reserve Program) through the USDA. This will provide for the conservation and restoration of much-needed wildlife habitat along with providing many educational benefits for our kids. A variety of native prairie grasses and flowers will be planted to enhance the area and provide wildlife habitat. We are also awaiting a response to a grant request that will help expand our orchard beyond its current capacity and go hand-in-hand with plans to expand our 4-H garden program! Another possibility for 2011 is building an impoundment near the pond to raise our own fish. This would provide both recreational and educational benefits for the kids and be a wonderful addition to the landscape!

As you can tell, there will be a lot happening at Scott's Prairie in 2011, ranging from class field trips, camping trips and nature hikes to teams courses, volunteer projects and much more. We hope you will have an opportunity to visit as well!

The 6<sup>th</sup> Annual Erie Insurance Golf Outing (held in May) raised more than \$17,000 to support the 24 AmeriCorps members at Children's Home who are serving in 2010-2011. This surpasses the event goal by over \$3,000! Thank you, Erie Insurance, for your generosity and support of the kids! While this event recognizes our long-term donors, Children's Home considers every donor and every gift invaluable. All items were then distributed to 24 local agencies and shelters!

We would like to thank everyone who volunteered for the event, those who volunteered through the Disney “Give a Day – Get a Day” program and the Caterpillar Remanufacturing Division – Mossville who, for the second year in a row, raised money and provided almost 25% of the blankets and personal care items for the project!

## The Spirit of Giving

Day after day, year after year, we are amazed by the generosity and compassion of our community. This is especially true during the holidays!

Once again, we have been overwhelmed by the outpouring of support you have given our children and families this holiday season. Hundreds of individuals, families, businesses and other

organizations volunteered their time to organize and donate gifts through our Holiday Adoption program and, as a result, over 1,000 of our kids had their "wish lists" filled!

Thank you so much for the brightening the holidays for children and families and for your commitment to making a difference in their lives!

## Community Lawn Care

If you are considering using a professional lawn care service this spring, don't miss this opportunity to get a beautiful, weed-free lawn and support the Children's Home at the same time!

Community Lawn Care is a professional lawn care company locally owned by Don Schumacher, who has 30+ years of golf and turf experience. They provide fertilization as well as weed, insect and disease control services for the turf grasses of central Illinois. Not only are their services competitively priced and completely guaranteed, but 10% of every dollar you spend goes directly to Children's Home. To date, this program has raised over \$2,600 for our kids and families!

If you are interested in receiving high quality lawn care services this spring, you can sign up for a FREE lawn analysis and estimate by calling 309.369.2378.

## Help Us Go Green(er)!

In our continued efforts to be more fiscally and environmentally conscious, we have decreased the number of "Promises to Keep" issues mailed each year and have started sending it electronically at the request of each donor. If you would like to help us in our efforts, simply send us your email address! Please be assured that your email address will only be used to keep you informed about Children's Home news/events and that your information will not be shared outside of the Children's Home. To get on the electronic mailing list now, please send your name and email address to Linda Keown, Executive Assistant, at [lkeown@chail.org](mailto:lkeown@chail.org). Thank you!
